PROFESSIONAL EXPERIENCE

REA India / Housing.com

Customer Insights Manager – Strategy & Regional Operations

July 2024 – Present

Chennai, Tamil Nadu, India

- Enterprise Advisory & Alignment:** Work with enterprise customers and internal business teams to understand operational challenges, customer expectations, and commercial priorities, converting them into clear improvement actions.
- Regional Operations Governance:** Support regional operations across Chennai, Coimbatore, and South India, working with a 30–40 member sales organization and managing insights for **90–120+ builder, developer, and broker accounts**.
- Data Analytics & Validation:** Use **SQL, Azure Databricks, Excel, and Power BI** to review customer, campaign, lead-flow, and operational data, identify systemic gaps, validate information, and support executive management decisions.
- Cross-Functional Delivery Bridge:** Partner with Product, Engineering, Sales, Marketing, and Operations teams to clarify requirements, investigate issues, improve internal workflows, and support the delivery of product and process enhancements.
- Accountability & Review Frameworks:** Prepare performance reviews using KPIs, customer feedback, SLA adherence, customer health indicators, and service-quality measures to improve operational visibility and stakeholder accountability.
- AI-Enabled VoC Architecture:** Introduced a Generative AI-supported Voice of Customer process to organize unstructured feedback, identify recurring customer issues, and provide structured inputs for product and operational improvements.
- Measurable Operational Impact:** Elevated customer CSAT from **60% to 90%**, sustained an elite **98% client retention rate**, supported **35–51% YoY revenue growth**, and reduced operational turnaround time (TAT) by **50%**.

Magicbricks

Product Operations & Customer Success Manager

September 2023 – June 2024

Noida, Uttar Pradesh, India

- Enterprise Client Lifecycle:** Managed customer onboarding, platform adoption, issue resolution, executive business reviews, renewals, and account development for enterprise real-estate clients.
- Requirements & Roadmap Input:** Worked with Product, Engineering, Sales, Marketing, and Support teams to understand customer concerns, document functional requirements, and improve service and product delivery.
- Health Monitoring & Proactive Retention:** Reviewed customer usage, engagement, account health, and service issues to identify early risks and recommend timely retention actions, elevating customer retention by **35%**.
- Program Execution & SLA Governance:** Coordinated more than **70 customer and product initiatives** and achieved an industry-benchmark **95% on-time delivery rate** through structured tracking and stakeholder follow-up.
- Executive Business Reviews:** Prepared comprehensive customer performance reports covering platform engagement, campaign results, lead quality, service issues, and customized monetization opportunities.

PROFESSIONAL EXPERIENCE (CONTINUED)

99acres.com (Info Edge India Ltd)
Assistant Manager – Client Delivery & Product Operations

April 2022 – September 2023
Noida, Uttar Pradesh, India

- **Process Re-Engineering & Velocity:** Improved client onboarding and implementation processes by identifying delays, clarifying responsibilities, and standardizing key activities, increasing customer acquisition velocity by **25%**.
- **Customer Health Dashboards:** Created customer health dashboards to monitor user engagement, SLA adherence, portal usage, delivery risks, and adoption trends.
- **Stakeholder Governance:** Converted customer feedback and operational data into executive business reviews and actionable recommendations for Product, Sales, and Operations leaders.
- **SOP Standardization:** Performed root-cause analysis on recurring service issues and introduced standardized operating procedures (SOPs) to improve consistency and reduce resolution turnaround times.
- **Churn Mitigation:** Reduced customer churn by **20%** through proactive lifecycle management, risk identification, and cross-functional problem solving.

99acres.com (Info Edge India Ltd)
Client Servicing & Campaign Manager

May 2019 – March 2022
Noida, Uttar Pradesh, India

- **Enterprise Portfolio Management:** Managed enterprise property developer and broker accounts representing more than **INR 10+ Cr in annual revenue**, ensuring account health, commercial longevity, and client satisfaction.
- **Commercial Advisory:** Advised enterprise clients on digital visibility campaigns, customer acquisition strategies, lead quality, conversion funnel performance, and return on investment (ROI).
- **Fulfillment Governance:** Coordinated multi-channel campaign execution, billing reconciliations, service commitments, performance reporting, and escalation resolution across internal teams.
- **Account Longevity:** Used account performance data and regular business reviews to identify operational improvement areas, strengthen enterprise relationships, and support account expansion.

Info Edge India Ltd
Lead Management & Quality Analyst

August 2015 – February 2017
Noida, Uttar Pradesh, India

- **Quality & Service Compliance:** Reviewed customer interactions, lead records, CRM data, and operational processes to ensure data accuracy, quality compliance, and service standards.
- **Data Integrity Lift:** Identified gaps in data capture and workflow practices, establishing structured audit workflows that improved reporting accuracy by **15%**.
- **Operational Coaching:** Prepared performance scorecards and supported frontline team coaching on CRM hygiene, documentation, process compliance, and quality standards.

SELECTED STRATEGIC & AI PROJECTS

AI-Powered Voice of Customer (VoC) Analytics Framework

Business Analytics / GenAI Project

- **Architecture:** Designed a practical GenAI workflow to convert unstructured CRM notes, call summaries, and customer feedback into structured business intelligence, recurring issue taxonomies, sentiment insights, and churn indicators.
- **Operational Integration:** Connected customer feedback directly with business reporting and product improvement decisions to help cross-functional teams respond to customer needs with greater consistency.

Customer Intent Intelligence & Opportunity Prioritization Framework

AI / Analytics Framework

- **Architecture:** Developed a scalable methodology applying customer behavioral telemetry and multi-channel engagement signals to identify high-conversion customer intent indicators.
- **Commercial Impact:** Formulated an opportunity prioritization algorithm to automate next-best-action alerts, helping sales and customer success teams prioritize high-value commercial accounts and accelerate conversion velocity.
